- Need to unlock 3 levels (\$15 each) + activate 1 Autopool (\$15)

Total \$15 × 4 = \$60 for activation and income eligibility

Send \$15 to your 1st level

You are now eligible to receive \$15 from each of your 1st level direct team members

Example Earnings

1 Direct = \$15

10 Direct = \$150

50 Direct = \$750

100 Direct = \$1500

UNLOCK LEVELS

Your Path of Higher Income

Unlock Level 2nd to 100th

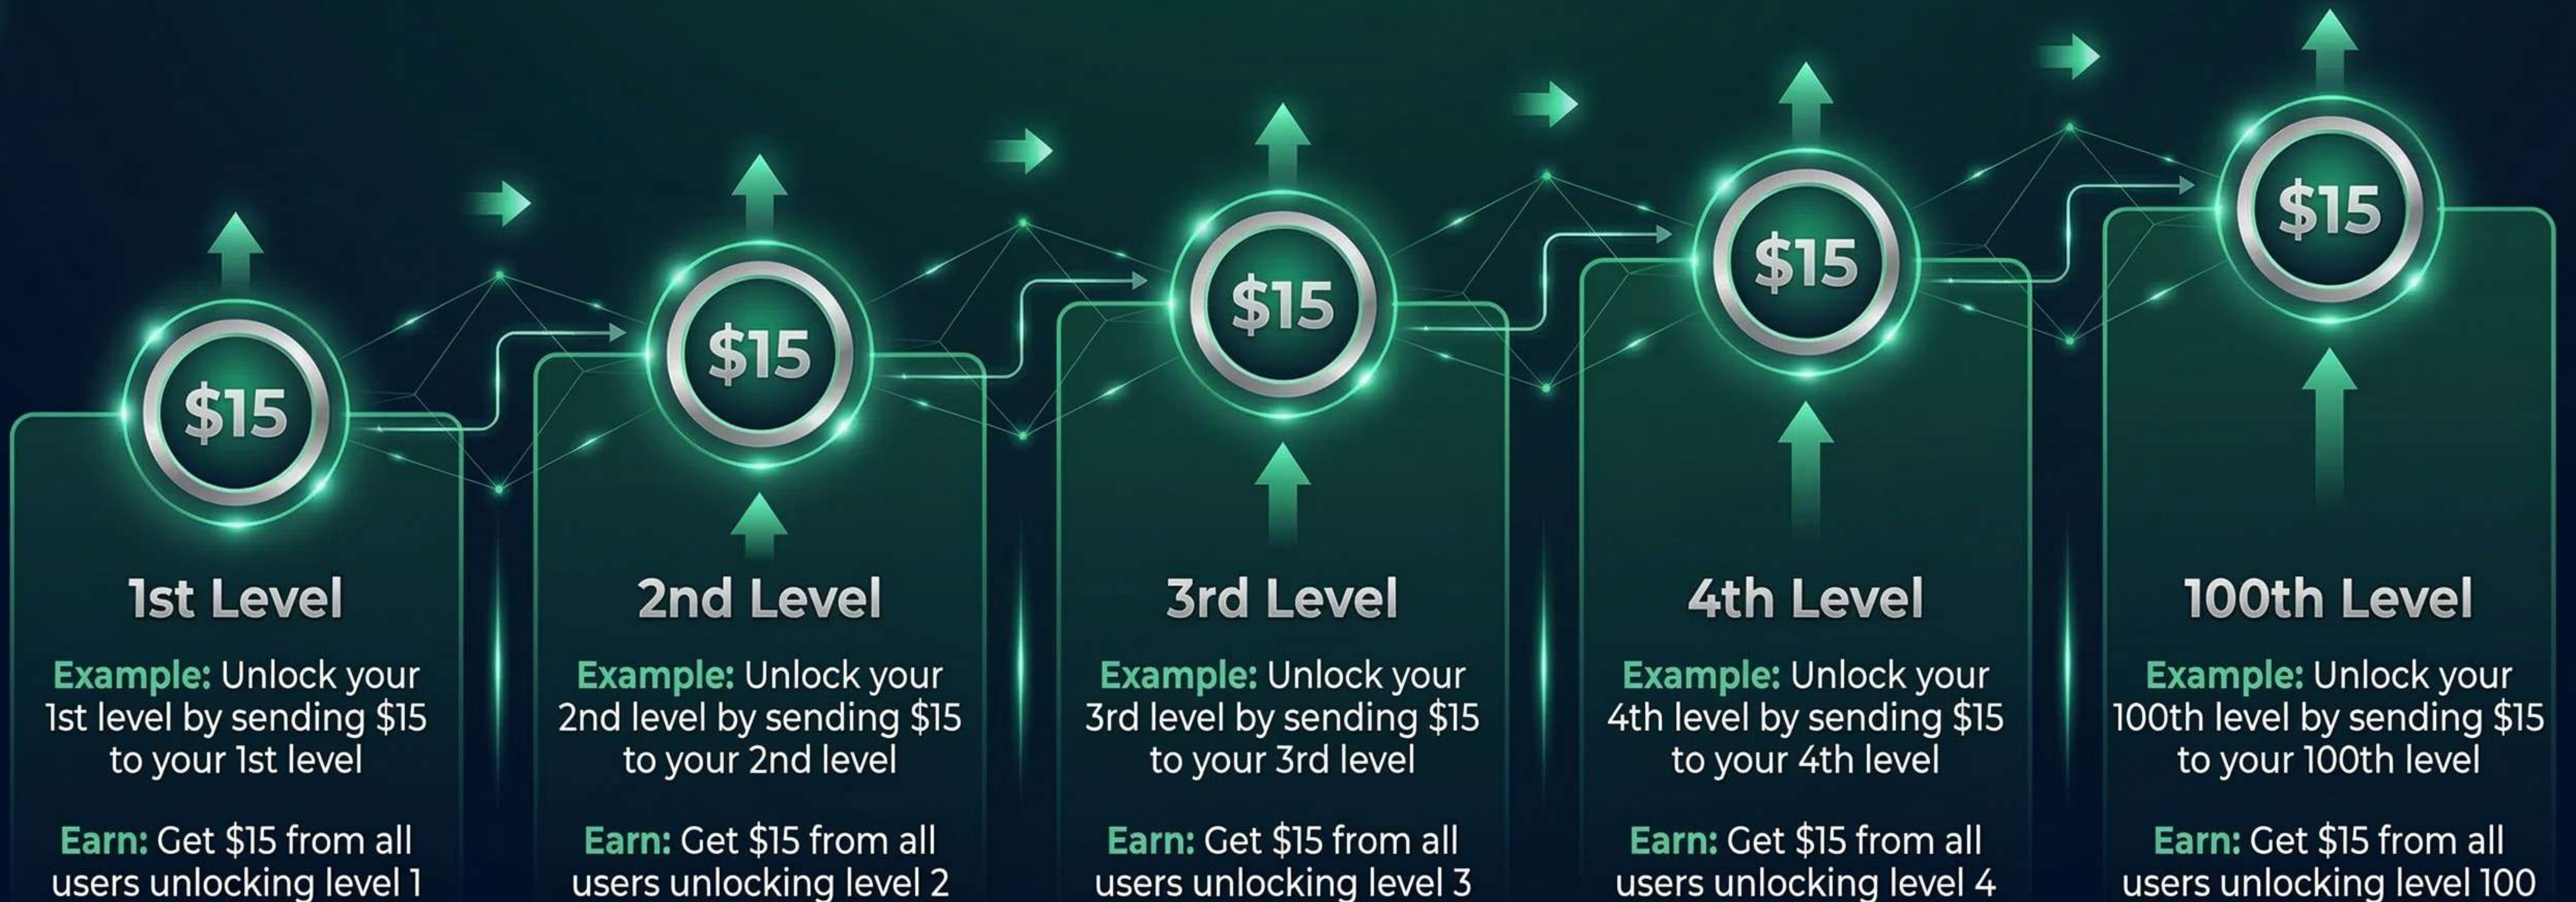

To unlock every level from 2nd to 100th you have to pay **\$15** to your respective level.

Example: If you unlock your 2nd level, you pay **\$15** to your 2nd level and the same process continues for the next levels.

HOW TO UNLOCK YOUR LEVELS

- When you unlock all your 100 levels, every \$15 from your downlines comes directly to you.
- If any of your levels remain locked, the \$15 from your downline will be passed to another participant whose level is unlocked.

UNLOCK LEVELS

Your Path to Higher Earnings

Hybrid Chain features **100 progressive levels**, each unlocking greater earning potential. To advance, simply send **\$15** to your respective level for each level. The more levels you unlock, the higher your earning capacity becomes.

Note

Initially with 1 direct you can earn up to 5 levels.

With 2 directs it expands from level 6 to level 10.

To continue earning up to the **100th** level you need to build **20** directs following the same process.

WHY UNLOCK YOUR NEXT LEVEL

Rule Overview

Every member needs to unlock 3 levels from \$15 each and enter autopool from \$15 to earn \$240. After reaching \$240 income at any level, you must upgrade to the next level from \$60 to keep receiving further income.

Example

Unlock Level 1, 2, 3 and 1 autopool from \$60 → earn \$240 → Unlock Level 4, 5, 6 and 1 autopool from \$60 → then earn another \$240. Continue following this process to maintain continuous income flow within the system.

Key Reminder

To continue receiving payouts, members must unlock the next levels and enter autopool after earning \$240.

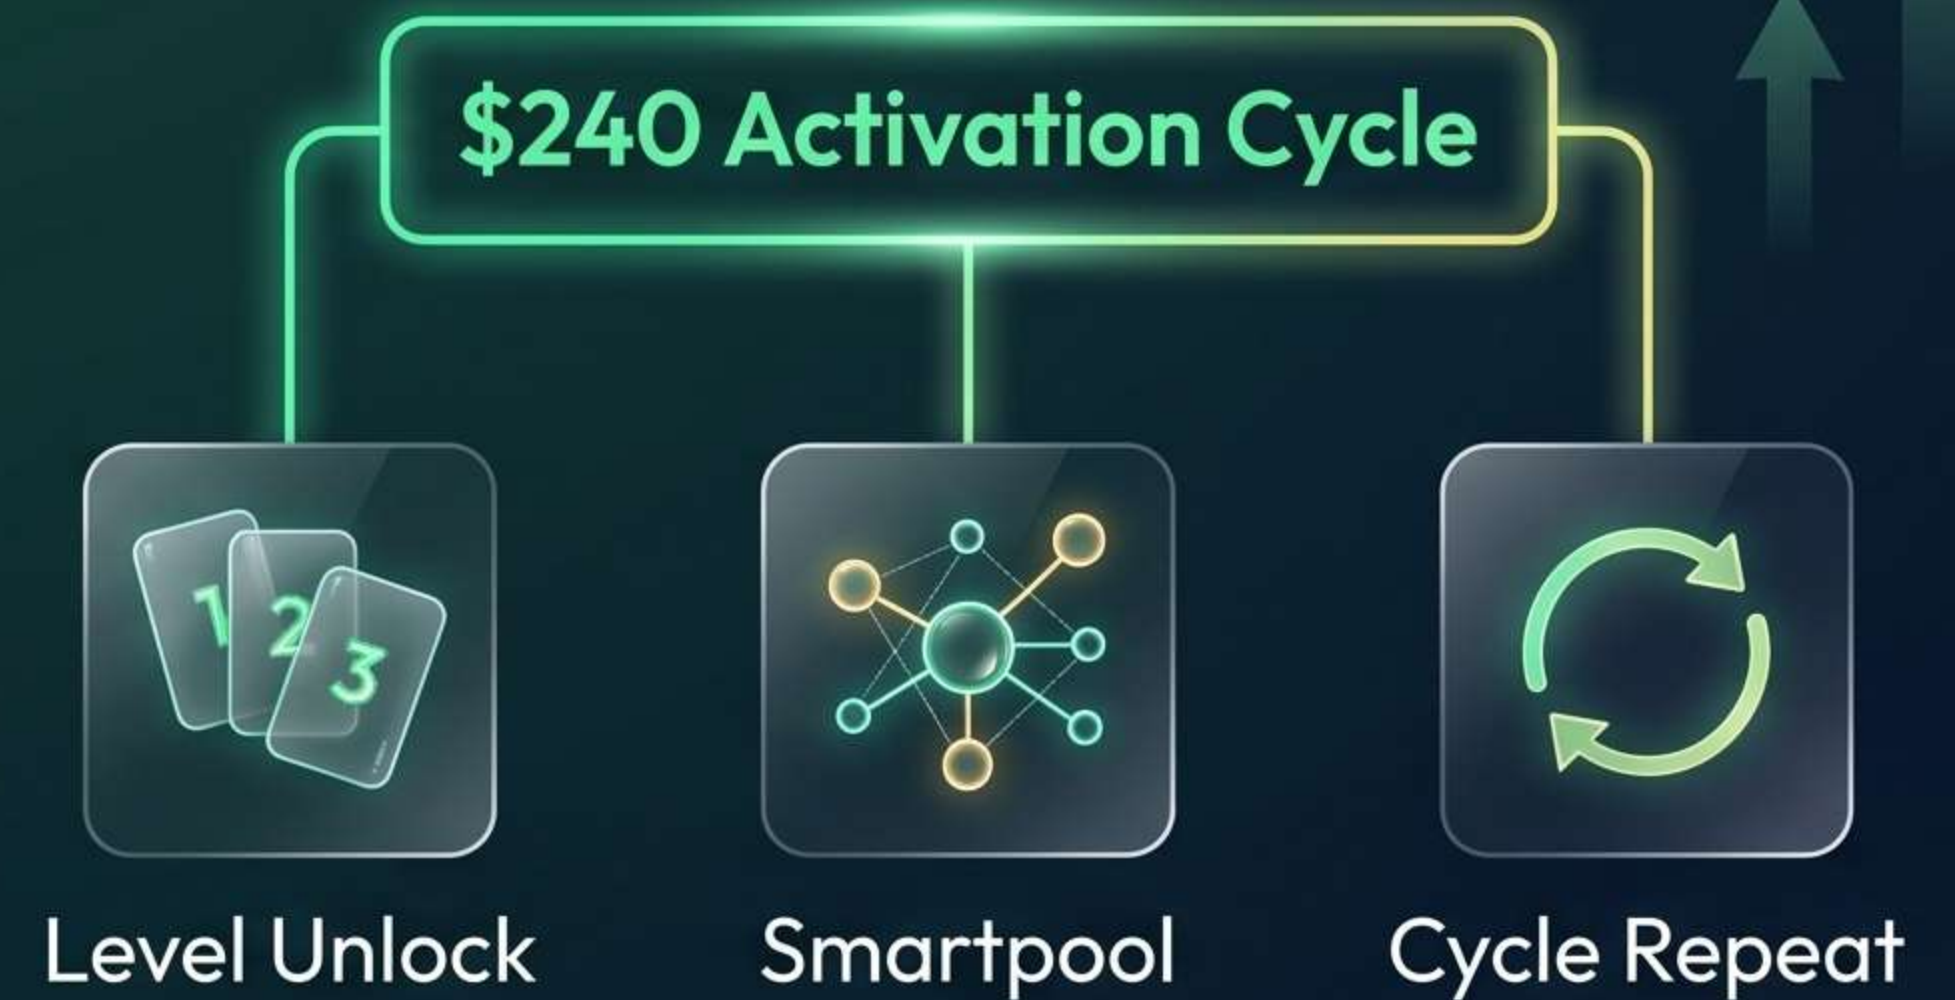

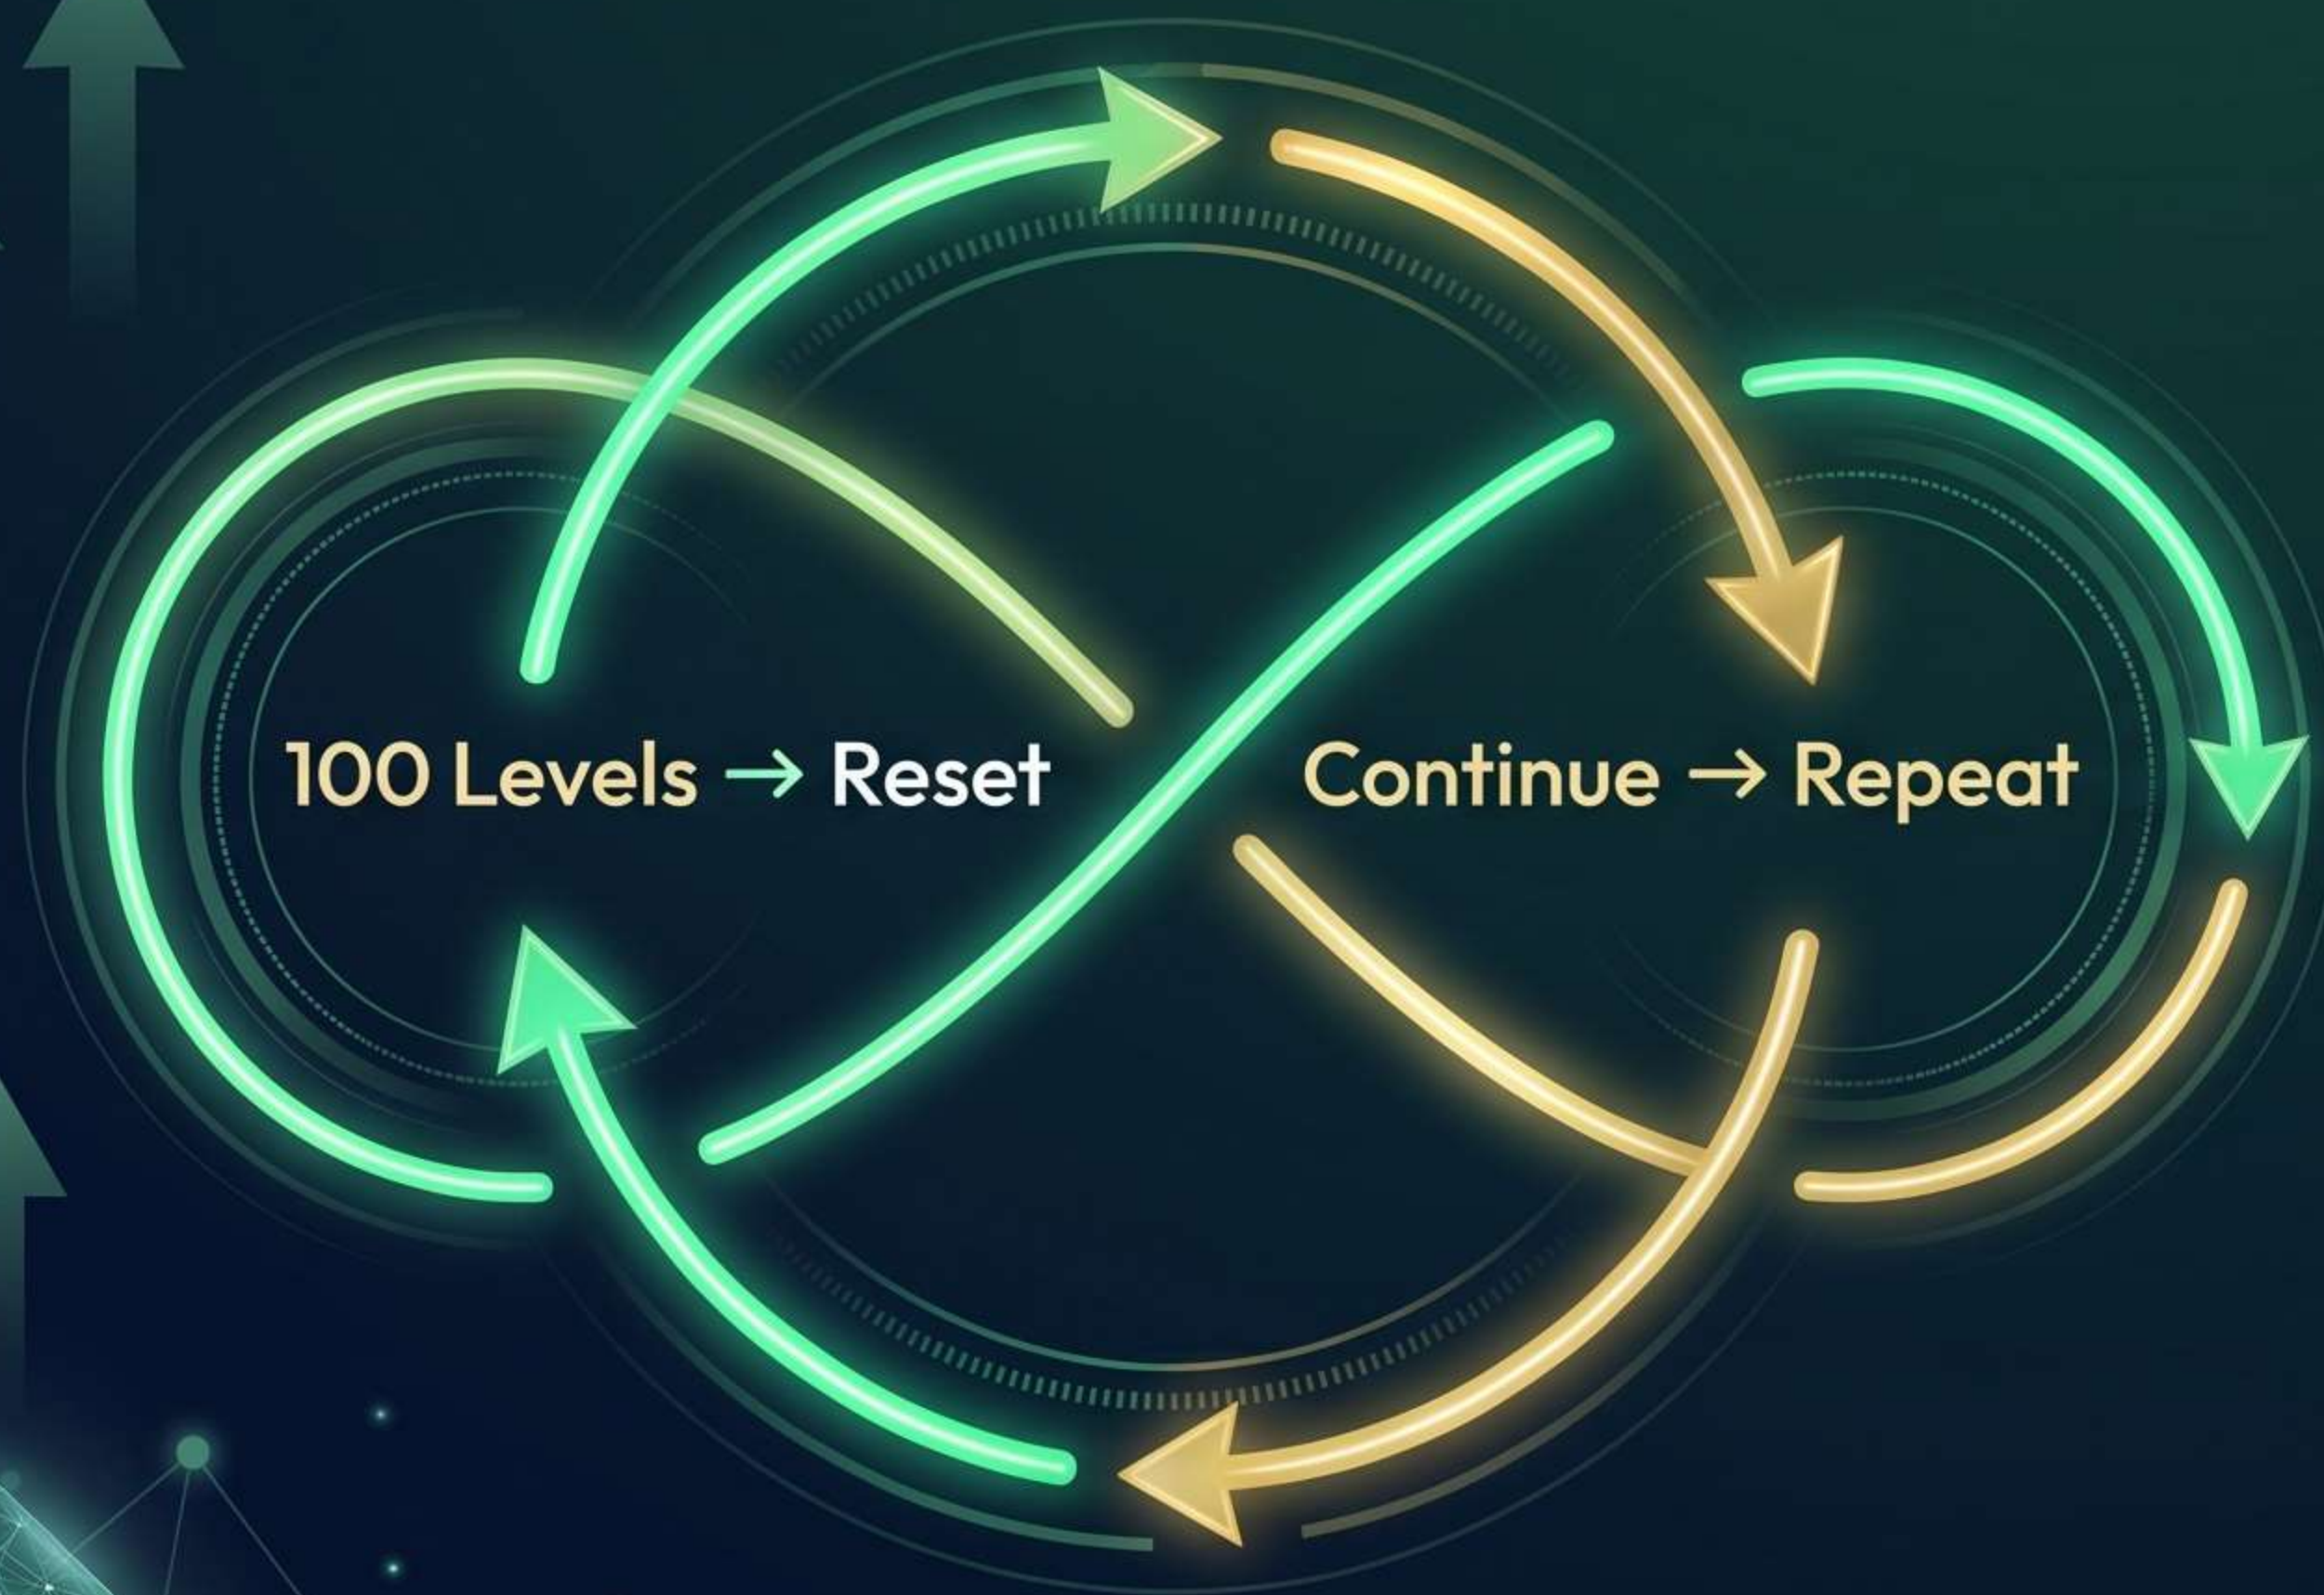

UNLOCK 100 LEVEL SYSTEM

Once all 100 levels are completed, the payment cycle restarts.
The earnings from levels 1, 2, 3, and 4 are redistributed again within the system.
This process repeats after every 100 level completion, creating a continuous earning cycle.

Level	Cycle	Amount	Multiplier
100 Level	1st Time	\$15	4X
100 Level	2nd Time	\$30	4X
100 Level	3rd Time	\$60	4X
100 Level	4th Time	\$120	4X
100 Level	5th Time	\$240	4X

UNLIMITED CYCLE SYSTEM

From the 6th cycle onwards, the required activation amount becomes **\$240**. This includes unlocking 3 levels and entering 1 smartpool. This same structure continues after every 100 levels, creating an unlimited earning cycle with no end.

NOTE: Every time you reactivate your ID, you must unlock 3 levels and qualify for 1 smartpool level.

LEVEL UNLOCK / SMARTPOOL PROCESS

On every **\$240 income**, you need to unlock the levels with **\$15**. After doing this **3 times**, the 4th time you will enter the **Smartpool**, and this process will continue repeating continuously.

Note: This process of level unlocking and smartpool entry continues serially up to level 100.

SMARTPOOL

POOL - 1 (\$15)

POOL - 2 (\$30)

POOL - 3 (\$60)

\$60 Earning → **\$30** used for next pool entry

\$120 Earning → **\$60** used for next pool entry

\$240 Earning → **\$120** used for next pool entry

Note

After each successful pool entry, 50% of your income will be used for the next pool entry. There are a total of 20 pool levels, and by completing them you can earn more.
